More Bargains Inside
**WHY YOU SHOULD BUY FROM US!**

**OUR STOCK IS GUARANTEED TO GROW**

Every plant you order is guaranteed to live. We will replace free of charge any or all plants that fail to live provided that you notify us of any or all plants that fail to live on or before June 1st after planting. You must follow our planting instructions enclosed with each order. On proper proof, we will replace free of charge any trees, shrubs, etc., that prove untrue to label or refund the amount paid, optional with us. Because of the many factors over which we have no control we cannot be responsible for the crop, nor for any amount greater than the purchase price.

**Order Early!**

**PREPAID** We prepay all stock to any part of the U. S. (except Balled and Burlapped Evergreens and large shade trees). There are no additional charges to add to our prices for transportation. You know exactly what it costs you when you order. (Foreign countries should add 10% of the amount of orders for transportation charges).

**EXPERIENCED PACKING.** We use the best material available for packing our orders thereby insuring you that all stock arrives in first class condition and will grow. We’ve had years of experience in shipping nursery stock.

**STATE INSPECTED.** Our trees and plants are inspected by the Arkansas State Plant Board, and again by experienced nurserymen before shipping. We guarantee you receive no diseased stock from us. Every plant inspected to protect you from any inferior stock.

**LOW PRICES.** Why can we sell such high quality stock at such amazing low prices? Because we use extra economy in growing, selling, and shipping nursery stock. We have no salesmen to pay commissions. All these savings is passed on to you in these amazing low prices.

**OUR STOCK IS ADAPTED TO ALL CLIMATES.** We ship to every state in the Union and many foreign countries. We have cool winter nights and short growing season making our stock well adapted to the extreme Northern, Eastern and Western states as well as being the best for Southern states.

**THOUSANDS OF SATISFIED CUSTOMERS FROM EVERYWHERE**

**READ WHAT JUST A FEW OF OUR CUSTOMERS SAY ABOUT OUR STOCK . . .**

**December 8, 1952.**

**Gentlemen:** I hasten to tell you that the trees you sent me came in good shape, and to say I am well pleased is to put it mildly. I am delighted with the beautiful and well shaped trees. I have bought from various nurseries but have never got as nice trees anywhere. And, from now on, when I need something in the nursery line, I'll send to you for it. Also, I will recommend your nursery to all my friends.—W. G. Montgomery, Chaitam, Ill.

**Dec. 4, 1952.**

**Gentlemen:** The fruit trees and grape vines came in fine and we were well pleased. Everything came in good shape and we are transplanting them. Yes, I feel the money paid for this bill of fruit was well spent and I think I will plan another order for berries soon.—E. L. Jaragnan, Carthage, Tex.

**Dec. 9, 1952.**

**Dear Sirs:** It may interest you to know that 4 to 5 yrs. ago we ordered the peach tree special, which we are duplicating now and you would hardly believe trees could grow so fast and our peach crop this year was amazing. We froze 89 qts. (sliced) plus giving away many lugs. We’ve been more than satisfied.—Mr. and Mrs. Gordon Carter, San Juan Capistrano, Calif.

**Dec. 10, 1952.**

**Dear Sirs:** Received order No. 43776 and was very well pleased with the trees. They appeared to be very vigorous and healthy. I want to congratulate you on the service you gave me.—G. A. Gimpel, Pratt, Kans.

**Oct. 23, 1952.**

**Gentlemen:** I received both bulbs and strawberry plants today. Both were in excellent condition and I’m well pleased with them, and your prompt wonderful service. The planting instruction booklet is a very useful article for anyone to receive. Thanks very much for your courteous service.—R. A. Patterson, Nashville, Tenn.

**Nov. 1, 1952.**

**Dear Sirs:** I have been buying trees and plants from your firm for the past few years and now have a collection of about 65 different varieties of fruit trees in addition to my rose collection and berries. Last December, I planted several trees purchased from you. One was a small S-N-1 Apple. Planted in December, it is growing up to the present 56 inches. A S-N-1 pear made 56 inches. I feel this is a very good growth for one year. I am enclosing an order for a few more trees.—Raymond Cheek, Hollister, Calif.

We have offered throughout this catalog many special bargains in collections made up from our best selling items. By buying these collections, you save as much as 25% from our regular prices, and also get the best varieties that we offer for sale. We advise that you order early as they sell fast and will not last long.
**FOR BIGGER PROFITS**

**ORDER OUR NEWER AND IMPROVED VARIETIES**

**OUR APPLE TREES are Strong, Sturdy & Well Rooted!**

**AN ALARMING APPLE TREE SHORTAGE** — U. S. Department of Agriculture Census Figures—"151,000,000 Fewer Apple Trees on U. S. Farms and Orchards NOW Than in 1910 although the Population of the U. S. has increased by 61,000,000! Many of the trees now on Farms and Orchards will rapidly pass out of profitable production."

**Winter Varieties**

Winter apples are harvested in late Fall and may be kept in storage for Winter and next Spring use.

**MAMMOTH BLACK TWIG** — Extra large size, round, skin smooth, yellow, covered with deep red, the general effect being dark red; flesh tender, tinged with yellow, crisp, acidic, aromatic; of excellent quality in every way. Tree vigorous, healthy and bears when quite young; very prolific.

**ARKANSAS BLACK** — Vigorous, upright grower. Fruit medium to large; fine flavor; beautiful dark color, almost black; flesh yellowish, slightly sub-acid, crisp. One of the best for cooking. January to March.

**Our One Objective**

Is to furnish you with the very best that is to be had in all kinds of nursery stock, ornamentals, seeds and plants.

**THE CRAB APPLES FOR FRUIT AND BEAUTY**

There is nothing like beautiful crab apples for a real display of bloom in early spring. The fruit makes wonderful butter and jelly too.

**FLORENCE** — The finest of the Crab Apples. Tree of rather small size, bears very young and producing heavily; fruit in clusters; about an inch in diameter; golden yellow with a bright cheek, of almost entirely red. The flesh is firm, fine grained and exceedingly juicy with that distinct snapiness so relished in a crab apple.

**DOLGO** — A handsome red Crab Apple. Flesh is deep red to the core. The fruit is full of juice, jelly easily and makes a rich ruby red jelly of beautiful color and excellent flavor.

2 to 4 ft........2.00
3 to 4 ft........2.67
4 to 5 ft........3.00

**POLLINATION** — It is best to plant two or more varieties of apples in the same planting plot. Several varieties do not pollinate themselves.

**Summer Varieties**

**EARLY RED RIBBON** — Earliest apple on our list, fiery, flaming red, from week to week before the Yellow Transparent. The earliest apples always bring the top prices, very fine flavor, good size and one of the very best for quality; a winner for a market apple. Bear young, annually, and immense crops.

**OLD FASHIONED HORSE** — Large, pale yellow, shaded with red; tender, juicy, sub-acid. Tree vigorous and very hardy; upright grower; bears early and abundantly. An old apple, famous for cider, pies, drying and all culinary purposes. When allowed to mellow to deepest gold, it is a delicious eating apple. We have the genuine. Ripens August last.

**YELLOW TRANSPARENT** — Hardy, upright grower; regular and early bearer, medium size. Rich, transparent yellow with a faint blush on sunny side; flesh melting, juicy, sub-acid.

**SUMMER CHAMPION** — Beautiful red late summer apple of extra good quality. Good color and large size. Good grower, heavy bearer and very hardy.

**FRUIT Special**

10 TREES 2 Feet and up 
5 Yellow Delicious Apple 
5 Improved Elberta Peach 
10 Concord Grape Vines, 2 yr.

5 Yellow Delicious Apple 
5 Improved Elberta Peach 
10 Concord Grape Vines, 2 yr. 
25 Gem Everbearing Strawberry

All for $7.30

**New Dwarf DELCON**

**ONE SIZE ONLY**

2 Yr. Old — $375
3 to 4 ft.

A small tree with large apples. Ideal for small lots, yards, and home orchards. An apple tree that normally doesn't get over 12 ft. tall, yet bears loads of beautiful, delicious, dark red, full-sized apples shaped like Delicious. The flavor has all the best qualities of two of its parents, Jonathan and Delicious, while the tree itself seems to have inherited additional hardness from its contributor, Ben Davis.

DELCON is a remarkable tree originated 17 years ago by the Missouri Fruit Experiment Station. Should have been on the market years ago. It is a single-graft dwarf. Much less expensive than $4.00 to $6.00 multi-graft Dwarves, and yet better.

(Plant 8 feet apart)

BLOOD RED STAYMAN WINESAP—A large Stayman Winesap that is blood red, excellent quality, keeps well. The tree is a fair grower and good bearer.

LODI (Big Transparent)—Lodi is proving to be one of our best early apples because of its large size, firmness and early bearing habits. The tree and fruit resemble the Yellow Transparent but the fruits are much larger and make the Yellow Transparent apple look like culls. The tree bears annually and ripens with the Yellow Transparent.

THE OLD FOLKS' FAVORITE

ANOKA

Bears second year. A wonderful early apple. Fruit is large and yellow, streaked with strawberry red. Good flavor.

1 to 3 ft... $1.04
3 to 5 ft... $1.04

Junior Red and Yellow Apple Assortment
4 apple trees of as good varieties as are grown. Yellow Transparent, Red Jonathan, Red Delicious, Yellow Delicious.

3 ft and up for $2.07

NEW WHETSTONE Apple

A Ben Davis by Jonathan cross, which in turn was crossed with Delicious. Originated at the Missouri State Fruit Experiment Station at Mountain Grove, Mo. The fruit is large, well colored, uniform in size and shape, keeps extremely well. The fruit is red with darker obscure stripes of medium width. Has greenish yellow background, but colors well all over when ripe.

The tree is vigorous, has large leaves, long apple stems and thick twigs. Produces large regular crops of high percentage of smooth apples. The finest baking apple we have ever known. Latest ripening apple to pick. October to June. The most interesting characteristic is its ability to hang on the tree and continue to grow and color after most all other commercial varieties drop.

Don't fail to order at least one of these trees this fall. $1.77

We can furnish 3 to 5 ft. size only.

Limit 5 trees per customer.
SEEDLESS PEAR

Brand new variety. Practically seedless. Solid all the way through. Ideal for canning. No waste. It is of the Bartlett type, pure white flesh with yellow blushed skin. Ripens 10 days later than Bartlett, and trees bear when three years old. A 5-year tree known to bear 3 bushels of fruit.

3 to 4 ft. size, $1.78 each

POLLINATION - Two varieties are needed. The only combination that is cross-incompatible is Seckel and Bartlett. A third variety is needed with the above two.

DWARF BARTLETT PEAR
ONLY ONE SIZE—2 Yr. Old—3 to 4 ft. $3.75
JUST THE THING FOR SMALL BACK YARDS!

Trees never get large. Bears year after set. Fruit large as standard pear. It's just the trees that stay small. A 6 ft. tree will bear a bushel of pears.

CULTURE

Pears will grow on almost any soil but will do best on a high elevation, provided the sub-soil is not too wet. Wherever this is the case the ground should be thoroughly underdrained. In very poor soil a heavy top dressing of manure in the fall will be of advantage. Standard pear trees should be planted twenty feet apart each way.

Pears are subject to fire blight, a disease controlled only by cutting back the branches beyond the point of injury.

Do not allow pears to ripen on the trees. The highest quality results from gathering fruit ten days before it is ripe. Winter pears are best stored before the heavy frost.

BARTLETT is the KING OF PEARs and also the leading commercial pear. Large yellow fruit with red blush, white flesh, juicy and sweet. Ripens middle to last of August. Excellent eaten fresh or canned.

(Plant 8 feet apart.)

1. Summer Champion Apple
1. Hanska Plum

3 to 5 ft. size ALL FOR ONLY $7.65

EARLY VARIETIES

BARTLETT—Large size, with beautiful blush next to the sun; buttery; very juicy, and highly flavored; bears early. August and September.

AUTUMN VARIETIES

KIEFFER—Large, golden yellow, often blushed in the sun; juicy and melting. One of the best for preserving and canning; the most profitable to grow. Tree healthy, hardy and vigorous. It is liable to overbear, therefore special pains should be taken to thin the fruit.

DOUGLAS—Blight proof; will bear fruit second year after planting; is very productive. The fruit is larger than Kieffer or Bartlett. The color is golden yellow, often with pink shading. The flesh is white, very tender and juicy and excellent flavor.

5-N-1 PEAR TREE

Five Kinds . . . On One Tree

Five famous varieties of delicious pears that bear the same year on the same tree. Ripens all during the season. Don't miss this sensational novelty tree. $2.98 each

**POLLINATION**—It is advisable to plant two or more varieties of plums, as many varieties do not self-pollinate.

**AMERICA**—Very early, hybrid. A full brother of Gold, the sensational $3,000 plum. Same parentage—a cross between Burbank and Robinson (Native). From the far-reaching experimental hybridizing of 20,000,000 cross-bred seedlings by the great scientist, Luther Burbank, came two grand plums—Gold and America; it was then plum growing received its greatest impetus. America is large, glossy, coral red, one of the most beautiful and delicious plums ever grown. In our orchard it is the one variety that can always be depended upon for a crop. Tree large, very vigorous, thoroughly hardy, bears extremely young, and bears enormous crops every year. Succeeds everywhere.

**MUNSON'S YELLOW**—A hybrid, seedling of Normand crossed with America. Ripens last week in June, the earliest of all plums to ripen. Colors well, yellow; size large; good quality, tender, juicy and sweet.

**GOLDEN (Gold)**—From twenty million native, hybrid and cross-bred seedlings, grown by himself, Luther Burbank made this his first choice. This was also his first great origination; and though since he produced many, many fruits, never has he produced one that can surpass or equal in all respects the Golden. Though a small dwarf-like tree, with small slender limbs, this is one of the hardiest, strongest trees. The finest plums and one of the most beautiful, a light transparent golden yellow, almost covered with a lovely bloom. In nearly every state of the Union this plum has been fruiting and from them all come fine reports. This plum is at the best during the hot season. Eat the fruit on the tree until it becomes highly colored and then it is delicious.

**HANSKA PLUM**—The color of the Hanska when fully ripe is a deep bright red, with firm flesh and of high quality. When fully ripe they are fragrant like the apricot and when cooked the strong apricot flavor is brought out to perfection, entirely unlike any native plum. The fruit has a small pit. The tree is a profuse bloomer, grows tall and is rapid grower. The trees often bear when they are only two and three years old. Freestone.

**ENDICOTT**—Tree growth good. Fruit medium size, color red, very sweet, juicy, pleasing flavor, ripens August 15th.

**PRESIDENT**—The largest of all the Plums. A beautiful dark purplish black with a heavy bloom. Ripens late, 10th of September. A wonderful rich flavored freestone, solid-flesh plum.

**BRUCE**—Large, red, productive. Early ripening, firm shipping quality, productivity and deliciousness of flavor.

**SAPA**—Bears first year. (Hanson Hybrid). A large size purple Hanson hybrid with purple flesh full of rich juice of fine flavor. Bears heavy crop annually and begins ripening the first year after planting. Succeeds everywhere; ripens middle of July, Fine for canning.

**STANLEY PRUNE**—Medium large; purplish-black; blue bloom; tree; flesh greenish-yellow, juicy, sweet and of good quality; will hang on tree after ripening; splendid for drying and market. Very productive. September.

**RED, WHITE AND BLUE GRAPE SPECIAL**

4 red, 4 white, 4 blue, of very best sorts, that will ripen at different times. All delivered to your door.

### APRICOTS EASY TO GROW GOOD BEARERS

**California Apricot Seedlings**

The best quality Apricots we have ever known. They are grown on seedling apricots and would bear as often as peaches. Guaranteed to be genuine California seedling trees.

| 1 to 2 ft. | 62 c |
| 2 to 4 ft. | 83 c |

**NEW! EARLY GOLDEN APRICOT**

Trees give big heavy crops of smooth, yellow, rosy blushed fruits, often as large as 2 inches in diameter, in early July. Strong, extra hardy tree. One of the most popular and widely known. Fine for eating, excellent for drying and preserving.

**3 to 5 ft. size trees for only $1.56 each**

**SUPERB**—Medium in size, light salmon color with numerous red or russet dots. Flesh yellow, firm and good. Fairly early.

**MOORPARK**—One of the largest and finest apricots. Yellow with red checks; flesh orange, sweet, juicy and rich; parts from the stone. Very productive.

New IMPROVED Elberta

The World's Finest Peach

The fruit is almost round, with deep red blush on the side; it is easily 4 to 5 inches in diameter with excellent flavor. A few years ago a local fruit man gave $5.00 for a bushel (when he could and was buying ordinary Elbertas for $1.50 to $2.00 per bushel), which was presented to the president of the Frisco Railroad Co. This fruit dealer was informed by the railroad officials that they could place a carload of that quality of Elbertas and pay the grower $5.00 per bushel if they could be had.

HALE-HAVEN

A most promising new, large, yellow freestone. Introduced by the Michigan State Experiment Station. A cross between the Hale and South Haven. Ripens two weeks earlier than the Elberta, making an excellent combination with Golden Jubilee and Elberta.

REDHAVEN

A Grand Peach—the most promising new, early yellow variety for either home use or commercial markets. (Freestone). Hardy, vigorous grower.
1. EXTRA EARLY—
   Ripens a month before Elberta.
2. BRILLIANT COLOR—
   Almost as red as a Jonathan Apple. Redens before it ripens.
3. FINE FLAVOR—Large Fruit.
   Sweet, juicy, fine textured, delicious.
4. GOOD SHIPPER—
   Firm flesh and tough skin.

OTHER NEW VARIETIES FOR BIGGER PROFITS

SOUTH HAVEN

Freestone. Ripens about 10 days before Elberta. Will bear full crop almost every year when Elberta fails. Large yellow peach. Good quality.

JUNE ELBERTA

Ripens about 30 days before Elberta. Will bear full crop almost every year when Elbertas fail. Large yellow low peach. Good quality.

MURRY BEAUTY

Freestone. Ripens about 10 days before Elberta. Large creamy white with deep red blush, yellow meat, good quality and shipper.

The Sensational

GOLDEN JUBILEE

We recommend this New Jersey Experiment Station introduction. Comparatively new, but widely planted. Is a real money maker. Quite hardy, resists excessive cold. Sure cropper, after severe Winters and heavy frosts. Ripens 20 days before Elberta.

GOLDEN JUBILEE is without equal as an early, large, yellow Freestone of highest quality. Flesh is yellow, tender, juicy, and sweet. Ideal for home use and roadside market sales.
Arkansas Stone Fruit Nursery Stock is VIRUS-FREE

Our stone fruits are grown under the vigilant eyes of the inspector of the Arkansas State Plant Board in a region free from virus diseases, making it by far the safest and best nursery stock for you to buy.

Some varieties such as “Peach Yellows,” “Phony Disease,” “Peach Mosaic,” and “Little Peach Disease” have ruined thousands of valuable peach orchards and practically wiped out the peach industry in certain peach-growing areas. These diseases are established in orchards by means of a few diseased trees or nursery stock and when planted these diseases spread from tree to tree by insects. The only control measures so far available are the destruction of the trees and planting of new trees grown in regions free of these diseases.

Don’t take any chances by ordering trees that might be infested with these diseases. ALL OF OUR STONE FRUIT NURSERY STOCK IS COMPLETELY FREE FROM VIRUS DISEASES AND IS THEREFORE THE BEST AVAILABLE FOR PLANTING IN ANY OF THE FRUIT-GROWING AREAS IN THE UNITED STATES. BE SAFE AND ORDER FROM US. DON’T RISK THE LOSS OF YOUR ENTIRE ORCHARD.

Late Varieties

LATE ELBERTA—Late yellow freestone. Best sort between Hale and Krummel. Looks just exactly like Elberta, but ripens two weeks after it. Better flavor. One of the best shippers, comes on market when yellow peaches bring top prices. Tree is self-fertile. Bears early, bearing hardiness. It has been one of our most satisfactory varieties. Late peaches are profitable. Fourteen days after Elberta. Cooking, eating, canning, market.

NAVARCH HEATH CLING—Very late white. Best strain of the well known White Heath. Fruit tender, melting, juicy, luscious, firm; does not bruise easily and ships well. Tree good grower, hardy, 40 days after Elberta. Cooking eating and market.

OLD FASHIONED RED INDIAN—Cling. Very highly colored, red as blood to the seed. There are many strains of Red Indian peaches on the market and a great many are very small and undesirable. Our buds from which our Red Indian were grown were cut from a tree that is the very best of all the strains.

Extra Late Variety

KRUMMEL, OCTOBER—Best late peach. Latest yellow freestone. Gloriously red and good flavor to all others—best of all. Of great size, almost round, deep yellow, no bitterness next to the pit. Flesh firm. Favorite for pickles. Strong grower, extremely hardy, bears well and is not subject to peach diseases. Everywhere—West, North, South. Late varieties always pay, and Krummel leads in big profits. It comes on the market after all other good freestones are gone. Forty days after Elberta. Cooking, eating, canning, market.

Order this Special and
Save 25%
CHERRIES

POLLINATION—Sweet Cherries are not self-fruitful, so two or more varieties must be planted. The sour varieties are self-fruitful.

EARLY RICHMOND—Everywhere the most popular. Tree strong, thrifty grower, making a large, symmetrical head; fruit medium, size, dark red, melting, juicy, sprightly, acid flavor and especially valuable for cooking purposes; tree an early and abundant bearer. Season last of May and first of June.

ENGLISH MORELLO—Tree moderate grower, hardy, an early and great bearer; the most valuable of the late varieties. Fruit large, round; skin dark red, becoming nearly black when fully ripe; flesh dark red, tender, juicy and a pleasant sub-acid flavor when fully ripe. July.

LARGE MONTORECY—A fine large light red cherry of the Richmond class but larger and more solid; a more upright grower, equally hardy and productive. Second only to Early Richmond in value. Ripens ten days later.

Hansen Hybrid Bush Cherry
Large, purplish red, sweet fruit, ½-inch or more in diameter. Excellent for serving fresh and for jellies. Dwarf grower, approximately 3 feet in height and spread. Ornamental as well as fruitful, being covered with white flowers in spring, and foliage turning red in Autumn. Ripens early July.

2 to 3 ft., ea., 72c; $7.30 doz.

HOME GARDEN CHERRY SPECIAL

These trees selected from our most popular Cherry Trees that are ideal for every home use.

3 Montmorency, 1 Early Richmond
4 trees 5 to 6 ft. size

ONLY $5.13

Also included extra 1 Hansen’s Bush Cherry, 2 Year Size

HYBRID PERSIMMONS
2 to 3 feet—$1.77

Some of these should be planted by every family. The fruit often measures ten inches in circumference. They ripen in August, September and October. The trees bear young, and are very ornamental.

EUREKA—Very large, oblong, pointed, flesh yellow, skin red.

TANE NASHI—A large acorn-shaped seedless persimmon, pale yellow and very productive. This is the persimmon you see in most stores selling at 5 cents each. It is frost resistant and widely adapted.

THE THREE MOST POPULAR VARIETIES OF NECTARINES AT LOW PRICES

SURECROP—Red freestone underlaid with yellow.
QUETTA—Red clingstone

2 to 3 ft. 93c; 3 to 4 ft. $1.20 ea.; 4 to 5 ft. $1.41 ea.

Figs

Under 1 ft. 85c each;
1 to 2 ft. 93c each
EVERBEARING FIG—Ripens its fruit from July until frost and each tree will produce Light and sweet. Fruit large, juicy and very productive. Does not crack easily. Ex-MAGNOLIA—July, August and September. Large, pale green or white, flavor flat; always bears on very short, frosty weather

SAVE MONEY! We Accept All Per Cent Off the 100 rate prices on lots of 1,000 and up on Apples, Peaches, Plums, Cherries and Pears.

SWEET VARIETIES

SCHMIDT’S BIGARDEAU—Very large, bright glossy black; half tender, juicy, rich and fine. Tree a rapid grower and good bearer. Last of June and first of July.

YELLOW SPANISH—Tree very large and vigorous, upright spreading. Fruit mid-season, color bright amber-yellow with a reddish blush. Flesh white, with tender aromatic sweet flavor. Freestone. Bears abundantly.

HYBRIDS

COMPASS CHERRY PLUM—Originated in Minnesota through a cross between the native Sand cherry and the Miner plum. It possesses remarkable hardiness combined with enormous productiveness. Fruit resembles the plum more than the cherry bright red color. Ripens the last of June.

BRAND NEW UNARK CHERRY

Originated at Fayetteville, Ark., and was introduced by Dr. Rosen of the University of Arkansas. Named Unark meaning the University of Arkansas.

This cherry is a large yellow sweet cherry. It bears every year and does not have to be pollinized with any other variety. It is as fine a yellow cherry as we have seen or ever heard of. The original tree stands 1½ blocks off the square at Fayetteville, Ark.

Don’t fail to order at least one of these trees. We have only a limited quantity on hand to sell this year.

(Limit 5 Trees per Customer)

4 to 6 feet, each
STANDARD VARIETIES
25 for 68c; 100, $1.73
1,000, $12.60

BLAKEMORE—Extra early fruit of bright red color, best market berry yet introduced. Bears enormous quantities of fine quality berries. Fine for freezing, good shipper.

TENNESSEE SHIPPER — A large, very firm, well-colored berry that sizes up well and retains its size throughout the season. High yield per acre and fine shipping qualities. One of the best for table use, preserving or freezing.

PREMIER—Among the first to ripen. Fruit large size and deep red color. Firm flesh and excellent quality. Heavy yielder and makes thrifty growth. You can depend on Premier for a good crop when other varieties are a failure. Foliage is not susceptible to the leaf spot.

AROMA—In matters of productiveness, quality, flavor and market value, the Aroma is so much superior to the other standard late varieties that we urge old customers to plant Aroma heavily and increase their profits by prolonging their berry season.

KLONDIKE (Improved) — The standard berry for the southern and middle states and does fairly well in the northern states. Productive, brilliantly colored and so firm that on the northern market it classes a re-shipper; commands top-notch prices.

SENATOR DUNLAP—A great producer and a money maker. One of the very best for canning and home use. Exceedingly productive, a sure cropper and a drouth resistor.

NEW ROBINSON
25 for $1.04; 50 for $1.77
100 for $2.72

A new variety with large size beautiful bright red and firm berries. A worthy mid-season to late berry especially adapted to commercial growing. A free plant maker and has healthy foliage.

12 Ozark Black Raspberry Plants
24 Huckleberries
25 Blakemore Strawberries
for $4.71

IMPORTANT NOTICE! A new disease of strawberry plants (Red Stele Root Rot) is very destructive and reports of damage vary from 40 to 92 per cent reduction in fruit crop. No treatment of the disease is known and the fungus will live in the soil for several years making it unprofitable to produce strawberries on the same land where the fungus has been in the soil. This disease is spreading rapidly. DON'T TAKE ANY CHANCE OF GETTING INFESTED PLANTS. ORDER FROM US. Our plants are twice inspected, once in the Spring for Red Stele disease and once in the Fall for all kinds of insects and diseases that attack strawberry plants. Our plants are found to be apparently free of all diseases. ORDER OUR PLANTS FOR HEALTHY STURDY PLANTS. DON'T GAMBLE ON CHEAP PLANTS AND LOSE YOUR FRUIT CROP.

FINEST EVERBEARING STRAWBERRIES

Gem Everbearing

The universal everbearer, an old favorite. Succeeds in all soils and climates except in the extreme south; fruits heavily the first season the plants are set; very heavy cropper of medium large, sweet, mild and beautifully colored berries. Grow it in hills or narrow rows.

RASPBERRIES PAY BIG PROFITS

Purple Variety
SODUS — An excellent home use berry, delicious for dessert, canning, preserves, jelly, etc. A very large, juicy, deep red fruit that is easily grown and very hardy, adapted to cold and dry weather; does not have as many briers, and yields very heavily.

Black Variety
CUMBERLAND — The largest of all the blackcaps; coal black berries; very firm and the quality of the very best; excellent shipper. Bush is a strong grower, stocky canes and unusually prolific. Mid-season.

Red Varieties
ST. REGIS EVERBEARING — The new everbearing variety. It gives a crop of fruit all summer and autumn, fruiting on the old canes in generous quantities until late in August. By this date berries begin to ripen on the young canes and continue until late autumn. Berries are of medium size and of surpassing quality, sugary with full raspberry flavor. It succeeds upon all soils whether light or sandy, or cold, heavy clay and the canes are absolutely hardy.

BENCO'S NEW GOLDEN QUEEN RASPBERRY
A real novelty! Sensational yellow Raspberry of the black Raspberry type. A chance seedling that is a cross between the red and black Raspberry — berry, a rich golden color of medium size. Its flavor is entirely different from any berry grown. Grown in preference to the red and black Raspberries, because of its sugar-sweet flavor. Just before the berry fully matures it is a rich yellow color, and when fully ripe a rich golden yellow. Truly a novelty for your garden — most unusual feature is that after first frost, canes will turn a rich yellow color, fruit can be eaten fresh or can be preserved; again they are very outstanding in a glass fruit jar, berries retain rich golden color. Get some for your garden now!

3 for $1.46  6 for $2.61  12 for $4.82

MAMMOTH BOYSENBERRY THE BIGGEST BERRY GROWN

Sensational Thornless Boysenberry Each, 21¢; Doz., $2.10; 100, $15.75
Probably the biggest berry ever developed. Imagine berries 1 1/2 to 2 inches long, so large that 20 make a pint, and are so productive that 100 plants produce 50 gallons of fruit the second summer. That is the record of Boysenberry. The beautiful wine-red fruit combines the delicious flavors of Loganberry, Blackberry and Raspberry, of which it is a cross. No new fruit in many years has caused such a sensation as Boysenberry. In addition to all these remarkable qualities, the plants we offer here have NO THORNS.

3 for $1.98  12 for $5.94

BOYSENBERRY

YOUNGBERRY

The new YOungberry has achieved the greatest success ever scored by any of the berry familes. It not only bears very heavily but the fruit is easy to handle; it is very attractive, ships well, keeps well and can be well canned and preserved. Commercial possibilities and it fits in so well in the home garden that everybody should be tried in having a few vines or a commercial planting.

Youngberries are among the largest berries of all, rich in flavor and big in size, red and blue in color, juicy and excellent in quality. You will find that more fruit will be produced from a few YOungberry bushes than any others on the same amount of ground. Youngberries thrive where any other berry fruits grow but do best in states of the same latitude as Ohio and South.

3 for 47¢; $1.78 doz.; $13.13 per 100

SUNRISE
(The New Red Raspberry)
Combining Earliness — Hardiness — Quality
Ripens 10 to 16 days earlier than Latham. The color is brighter red but turns dark red on ripening — the berries pick easily. They are firm, fine textured, juicy, non-crumble, mild sub-acid in flavor.

3 for 62¢  12 for $2.08  100 for $15.23

BLACKBERRIES
3 for $4.1c; 12 for $1.56
25 for $2.93; 100 for $10.17
EARLY HARVEST—The earliest to ripen and the most productive of the early sorts. Medium size, glossy black, good flavor and good shipper. Planted extensively in the south for canning. Ripens so early that it always sells at enormous prices.

LAWTON—A heavy yielding Blackberry that is probably the most widely grown commercial Blackberry. Berries are of enormous size, glossy jet-black, and of sweet pleasing flavor. Very firm and outstanding for their ability to be sent to distant markets remaining in good condition. Always commands highest prices and grand for home planting. Ripens in July.

OZARK BEAUTY—Superior to any blackberry grown where it has become known, this blackberry is hardy, stands drouth. It is almost free from seeds and has no objectionable core. It has little or no juice, the pits being filled with a thick syrup or flesh of the berry. Ripens just after Early Harvest. The berries are very large and best quality. You will make no mistake in ordering Ozark Beauty.

ROBINSON (Wonder) — Almost rust-proof...heavy bearer.

EVERBEARING BLACKBERRY
(TREE FORM)
This is one of the latest creations in blackberries. Bear enormous crops, beginning to ripen just after the early harvest and continue almost until frost; the berry is very large, of fine quality, melting in your mouth and does not have a large core. Husky growing plants, standing erect, resembling small trees from 6 to 8 feet high and branching heavily. We have only a very few for the market this year.

3 for $2.61; 12 for $1.70
25 for $4.82; 100 for $17.20
BENCO’S CRYSTAL WHITE BLACKBERRY

Grass Seed for a Beautiful Lawn
KENTUCKY BLUE GRASS
Excellent lawn grass; ideal for golf fairways and putting-greens; the sweetest and best pasture grass. Plants slightly creeping with deep green narrow leaf blades. 1 pound plants 250 sq. ft. for lawns; 40 pounds per acre for pasture. Plant in the fall and early spring.

1 lb., $1.31; 5 lbs., $6.30
PERENNIAL RYE GRASS SEED
(WINTER GREEN)
A fine winter lawn grass. Fast growing with broad, flat blades of a beautiful green color. When scratched in the present lawn it will produce in about two weeks. It makes a beautiful solid carpet of green by itself. Sow about 10 lbs. per 1000 sq. ft. (50’x20’). When planted on Bermuda or carpet lawn the grass should be mowed as closely as possible before sowing Winter Green seed. It lasts until the Bermuda grass or carpet grass comes up in the summer. It does well in sun or shade.

1 pound 63¢; 5 pounds $2.63

NEW U-3 BERMUDA
THE SUPERIOR LAWN GRASS
If you would like to have a beautiful lawn...that will grow luxuriously in hot summer weather and sun...that chokes out crab-grass and summer weeds...requires little or no water...is permanent, wear and disease resistant — THEN HERE’S YOUR GRASS!

U-3 makes a permanent lawn. In the deep south, it stays green practically all year. Makes a close dense turf. Children can romp and play on it without its showing any wear. It stays green longer than other Bermuda.

Since U-3 grows on seed, it is furnished in cut-up roots which should be planted on 12-inch centers. Easy to plant. All that is necessary is to cut little holes in your lawn and fill with water, place cut-up roots in the holes and cover with dirt. Runners will go out and in a matter of a few weeks will meet and start to build up a dense, springy turf.

Trial Package (Plants more than $5.50...
100 sq. ft. on 12-inch centers)...$2.75
Standard Package (Plants more than 1200 sq. ft. on 12-inch centers) $26.00

ORDER NOW! DON’T DELAY! SUPPLY VERY LIMITED!

NEW BLUE BERRIES
GROW YOUR OWN BLUEBERRIES—PICK THEM FRESH OFF THE BUSH
Cultivated Blueberries are hardy shrubs of rare beauty; they are doubly valuable because they are fruitful and ornamental all year.

As a commercial proposition it is one of the most profitable fruits to grow. There is a big market. They make good money in a very short time, for you can begin picking the second or third season after planting.

Choose a piece of ground easily supplied with moisture during dry summer months; it should not, however, at any time become water-logged. Plant in full sun if possible; they will also do well in partial shade. Be sure the soil is acid. Give only shallow cultivation, not over 2 to 3 inches deep, so as to leave the roots undisturbed.

CONCORD. Bush of upright habit, at maturity exceeding 6 feet in height. The berries are large.

JERSEY. Very large and vigorous in habit. The light blue berries are very large.

Each 2-Yr., 12 to 18 in.
3 $1.31
6 $2.55
12 $4.05

We recommend ordering both varieties so they will cross-polinate and fruit freely.
EXCELLENT FOR SHADE

NUT TREES ALWAYS PAY BIG PROFITS

These are selected items that will not require special sprayings, cultivations, pruning and care. Yet they will grow good and make fine berries, fruits and nuts with hardly any attention. Just plant this special, forget about it until time to pick. Here is what you get:

2 Keiffer Pears 4/6' 1 Thomas Black Walnut
10 Concord Grapes 2 Yr. 1 Stuart Seedling Pecan

A BARGAIN EVERY FARM SHOULD HAVE FOR ONLY

$6.25

The Chinese Date (Jujube or Zizyphus) is a fruit from the high interior of China. The tree is a heavy and constant bearer and commences to bear at an early age, four-year-old trees having produced 150 pounds of fruit. It blooms very late in the spring, avoiding all danger from spring frosts. The fruit is one to two inches long, and chocolate colored. It is delicious when eaten fresh or cured like dates, and is excellent for preserves and jam. Cooked in a sugar syrup and allowed to dry, it becomes a most tasty and palatable confection which we believe will eventually rival the date as a commercial product. Every home should have one or more trees. It likes a clean back yard where it is not cultivated but will grow anywhere.
HORERADISH
It is easy to grow as a weed, and every good housewife knows its great value in the making of sauce and seasoning. Once used in pickle, it will never be done without. Horseradish sauce is one of the chief appetizers of the golden old-time southern cuisine. It is also one of the new sauces or condiments that is pronounced by the best authority to be perfectly wholesome. A dozen plants will supply a large family for a lifetime, and it grows and multiplies very fast.

17¢ each — $1.73 doz.

SAGE
HOLT'S MAMMOTH—Plant very robust, perfectly hardy, ornamental. Large leaves, finest flavor; used for seasoning, sausage, meat dressing, etc. Also for medical purposes. Should be in every garden.

41¢ ea.; $4.15 per doz.

RHUBARB
We have the Best Kinds Grown

Rhubarb
(Pie Plant)
CUL TURE—Good plants are easily grown in any good soil. Plant four feet apart each way; in deep, warm and very rich soil. The more manure the better the stalk. For winter forcing, take up two-year roots in fall, leave out to freeze, then bed close together on cellar bottom or under greenhouse bench in the dark.

McDonald Red Rhubarb
The best large, red Rhubarb with stalks of giant size. Good quality, sweeter than common Rhubarb and requires less sugar. It yields heavily and lasts a lifetime. Produces so quickly that stalks can be cut from it a year sooner than from the old varieties.

72¢ each; $7.30 dozen

Ruby Red Rhubarb
Another red that is a prolific yielder. The stalks are intensely red, even the flesh is red. The skin is so tender it can be cooked with the stalk. The stalks are smaller than the McDonald.

67¢ each; $6.77 dozen

GARDEN FAVORITES

RHUBARB
Giant Victoria
This is one of the greatest and most valuable vegetables we have ever offered. It is the earliest, tenderest, sweetest and best of all rhubarbs; fit for use in early spring, summer and all fall, while the common or sour sorts are fit for use only a few weeks in the spring. As fast as stalks are pulled new ones take their places. Scarce has the frost disappeared until your table is supplied with this delicious, refreshing and healthful article of food which is so much desired and appreciated. The stalks are twice the size of the ordinary kind, and of a bright crimson color, very tender, crisp, and of mild, delightful flavor; the skin is so tender it does not have to be removed when cooking and the sauce has a deep crimson color. Stalk will average 10 to 14 inches long, broad, thick and stalks will weigh on an average one-half pound each and often weigh a full pound. Enormously productive, brings high prices and is a great money maker and in great demand. Try a dozen or two, our word for it, you will never have cause to regret your purchase and will never be without some of this variety.

Strong Roots, each, 16¢;
$1.58 per doz.
$10.50 per 100

OZARK HUCKLEBERRY
This delicious little berry is a native of the Ozark Mountain range, remarkable for the Ozark Mountain range, remarkable for its fine flavor, a choice fruit for jams, pies and fruit cake. Grows luxuriant, very hardy, prolific bearer, and given a small amount of attention produces reg. a full annual crop. Will grow on almost any kind of soil — and once set is the permanently, never having to be renewed.

30¢ each — $3.10 per doz.

MINT (Piperta)
Peppermint is known as hardy mint. A perennial herb 1 to 3 feet high, characterized by its strong, pungent oil, reproducing by underground stems, nearly 3 inches long. It grows well in wet soils.

16¢ each — $1.58 doz.

ELDERBERRY
The small white flowers come in large, handsome clusters; very fragrant, handsome, opening in early summer when other flowers are scarce. Fruit black, very prolific; ripening in August. Grows 6 to 8 feet high. Berries are highly esteemed for pies, sauce, conserves, and highly flavored wine which is very refreshing. Everybody likes these Elderberries; they are easy to grow and do well everywhere.

36¢ each — $3.62 per doz.

IMPROVED DWARF JUNEBERRY
A good substitute for the large or Swamp Huckleberry. The fruit is borne in clusters, and is a red or purple black in color and changing to a bluish black. In flavor it is mild, rich sub-acid, excellent as a dessert fruit or canned.

41¢ each — $4.15 doz.

NEW PARADISE
New introduction about twice as productive as other. Large, plump stalks, tender from top to bottom — keep shipping up for about 2 months each spring. Fine for canning or freezing. Rust-proof, disease-resistant.

93¢ per doz.
$3.35 per 50

PAW PAW or "ARKANSAS BANANA"
A very small tree with purplish or whitish flowers and handsome foliage. The large fruits are as far north as the middle of Nebraska and are highly appreciated. Very desirable as an ornamental tree.

Price on First-Class Trees
$1.03 each — 12 for $10.34

SASSAFRAS (Verolium)
Usually a small, slender tree, but specimens up to 100 feet high. Flowers yellow, usually in racemes at the base of leaves, usually in a bloom, unbranched. Fruit slender, black, about 3 inches long. Fruit foliage in the fall, red, most make a fine healthy tea in the spring of the year.

3 to 5 ft., $1.03 each

LOOK AT THESE ROOTED GRAPE VINES

These were set out late and did not make large vines this season. They will grow well and make fine vines in one year.

6¢ Each

Fine for Table Use, Wine, Jelly & Juice

FAVORITE VARIETIES

WHITE

- NIAGARA—Occupies the same position among the white varieties as Concord among the black. Bunch and berries large, greenish white, changing to pale yellow when fully ripe. Skin thin but tough; quality much like the Concord.

RED

- DELAWARE — The bunches are small, compact, and sometimes shoudered; berries are small with thin but firm skin; flesh juicy, very sweet and refreshing and of the best quality for both table use and for wine. Ripens with Concord or a little before; vine is hardy, productive and a moderate grower.

BLACK OR PURPLE

- MOORE'S EARLY—This might be called an early Concord; almost to it in appearance and quality, but ripening two weeks earlier. Most reliable of the very early varieties, vigorous, healthy, bearing heavily. The vines grow increasingly productive as they attain age. The bunches are good size; the berries big, deep, glossy black, have a sweet deliciusful flavor.

- BEN-CO'S NEW

EVERBEARING CYNTIANA

Ripens Early Till Late

Ben-Co's New

EVERBEARING CYNTIANA

This new Everbearing grape begins to ripen with Concord and continues until frost. Has ripe grapes, green ones and blooms on it all the time. The best red wine grape known. Red wine made from this variety, grown at Bushburg, Mo., about 25 miles south of St. Louis, won first prize at the World's Exposition at Vienna, Austria, as the best red wine from all nations. (This grape originated here in Benton county, Ark.). A very vigorous grower. Does not require a rich soil; prefers a dry soil of moderate fertility. Has a higher content of sugar than any grape known. About the size of the Delaware. Clusters are large; color is black covered with blue bloom.
NEW EVERBEARING CYNTHIANA
The Best Red Wine Grape Grown

INCO'S DELICIOUS CACO SEEDLING GRAPE—A New Red Grape!
Offered by us for the first time, elds large bunches of immense, gleam-
ing grapes, deep rich purplish red. A vary producer. Larger, thicker skin, an Caco and bears heavier and hangs later — until frost. Fast becoming the most popular grape for the home nyard. Exceptional good flavor—full sweet, wine-like and refreshing.

Limited Quantity — Order Early!
2 Yr. Plants 79c each for $2.25; 12 for $7.95

FREDONIA

Black, with heavy bloom, cluster about medium, berry large, very early, good quality, comparatively new and very promising.

PORTLAND

Holds first place among Grapes as an early white variety. Vine is hardy, productive and healthy. Bunches and berries larger than any other white Grape.

CACO

The Best Red

This is a variety considered the best and hardiest amber-red ever produced, the bunches being very large and the berries comparable with the new Fredonia. In quality Caco ranks among the best of the native Grapes, approaching in flavor European Muscat rather than the foxiness of native Grapes.

NEWER VARIETIES OF IRIS
Choice Varieties that everyone will be proud to have in their gardens.

ANGELUS—Creamy lavender-pink. Distinct and beautiful color in a large, broad-petaled flower of heavy substance.

APRICOT—Solidly colored golden apricot, medium size with slight fluting and ruffling in both standards and falls.

BLUE TRIUMPH—Light blue with large flaring flowers. Each.

Copper Lustre—Beautiful copper tone. Performs well in all sections of the country. It positively glows in its bright copper, gold and pinkish fan blendings—Dykes Medal Award 1938.

Dainty—One-time best "red," this purple-red—Dykes Medal of 1925, for general all around goodness, as one of the best irises of all time. About 40 in.

Destiny—Dark purple with rich golden beard. Each.

Elegant—One of most exciting Irises ever grown. A very rich red-purple color. Stems at least 3 ft. tall, excellent branching, and a great number of huge blooms. Each.

KANSAS INGLISIDES—A warm toned red spring bloomer and also good fall bloomer. Each.

Southland—A sensational new deep golden yellow variety, large flowers of fine form, heavy substance. Each.

Tiffany—Yellow and Maroon. Strong hardy plants bloom and increase freely. Each.

BLUE SIBERIAN IRIS
A superb plant for any flower garden. Grows about 30 inches high. Flowers are violet blue. Blooms in June and July. A good cut flower. Grows in damp but not swampy places. Be sure to order a few of these plants for your garden. Price 20c each; $2.05 per doz.

RARE IRIS COLLECTION
12 Roots $1.46

TUBEROUS BEGONIA
Beautiful tuberous Begonias from Belgium. Used as pot plants for winter beauty. A bed of these will provide a display of gorgeous flowers. Red, Pink, Orange, Copper, and White. Prices, 25c each; 3 for $0.69. 6 for $1.19

Our supply is very limited—Order Early

Oriental Orchids of the Garden
(IRIS KAEMPFERI)
Your garden is not complete until you have this beautiful flower growing in your perennial collection. Now you can grow your own Orchids by planting Iris Kaempferi, which is entirely different from all other Iris and comes into bloom as the early summer fades, continuing to bloom until mid-July. The huge blooms of velvety texture measure 6 to 8 inches across. The leaves are long, narrow and gracefully formed, and the plants remain decorative even after the blooming period is over. It is no wonder that the Kaempferi is called the "Queen of the Garden.

Excellent for cutting it will grow 3 to 4 ft. high. Plants thrive in well drained fertile soil (it is fatal to select a location where water stands during winter.)

Mixture of Colors: Rose, White, French Blue, Purple-Velvet, each, 3 plants $1.46 for

Price 39c each; $2.94 per doz.
**Distinctive and Outstanding SHADE TREES**

The TWO MOST POPULAR OAKZARK TREES

**MAPLE, SUGAR (Hard Maple)**—Excellent for street and lawn planting. Produces maple sugar. A tree of magnificent proportions, often 80 feet in height, spreading and symmetrical. Long live. Forms deeply, allowing grass to grow close. Dark green leaves turning to scarlet and gold in autumn. 2 to 3 ft. $1.05; 3 to 4 ft. $1.50; 4 to 5 ft. $1.95; 5 to 6 ft. $2.35; 6 to 8 ft. $3.15; 8 to 10 ft. $4.40.

**JUDAS TREE** (Cercis Canadensis) (Red Bud)—A small growing tree of irregular form, with heart-shaped leaves. It is covered with delicate pink blossoms early in spring before the leaves appear. A charming association among the tender greens and brownes of young foliage. 3 to 4 ft. $1.05; 4 to 5 ft. $1.50.

**QUICKIER SHADE AND BEAUTY**

**FLOWERING PEACHES**

**PEACH, RED (Double Flowering)**—A beautiful small tree rarely over 20 feet tall; at first blooming time in May every twig and branch bright with beautifully formed flowers, remaining on the tree 3 to 4 ft. $1.05.

**PEACH, WHITE FLOWERING**—A very ornamental tree for its foliage. The leaves are closed red turning early in the spring until frost. 2 to 3 ft. $1.95; 3 to 4 ft. $1.13.

**PEACH, SILVER LEAVED** (Soft Leaf)**—Leaves white underneath; of rapid growth; very ornamental and one of the best trees we have. 4 to 5 ft. $1.35; 5 to 6 ft. $1.65.

**PEACH, RED CENTURY** (or Tree of Heaven)**—The large, deep orange flowers make an attractive tree for the large growing trees of the Oakzark Mountains. 30 feet tall, 25 feet wide. 4 to 5 ft. $1.59; 6 to 8 ft. $3.15.

**BIRCH, European White** — Dark green leaves with white bark. 4 to 6 ft. $3.10 ea.

**OLIVE, RUSSIAN** — Wide spreading tree of moderate height. 2 to 3 ft. $1.95.

**PERSIMMON, American** — This is the pucky persimmon; 7 to 8 inches across; more or less fruit. 3 to 4 ft. $1.05.

**MONKEY FLOWER, (Purple Leaf Plum)** — A distinct and handsome little tree, covered with dark purple flowers. 3 to 4 ft. $1.45; 4 to 6 ft. $2.45; 6 to 8 ft. $3.45.

**CATAULA SPECIOSA** — Broad, large leaf, with large, fragrant trumpet flowers in April, May, with large, fragrant flowers. 1 to 3 ft. $1.05; 3 to 4 ft. $1.50.

**TULIP TREE** (Whitebloom)—One of the grandest of our native trees. It is 30 to 35 feet tall, 20 feet wide. 4 to 5 ft. $1.95; 5 to 6 ft. $2.45; 6 to 8 ft. $3.45; 8 to 10 ft. $4.40.

**WHITE DOGWOOD** (Cornus Florida) — A handsome, large white flowering tree. 25 to 30 feet tall, 15 feet wide. 4 to 5 ft. $1.65; 5 to 6 ft. $2.35; 6 to 8 ft. $3.15; 8 to 10 ft. $4.30.

**SWEET WOODRUFF** (Liquidambar styraciflua)**—A native tree that is perfectly hardy. The glossy foliage, the yellow and purple foliage, with the carminy red berries turn to deep red in autumn. 4 to 6 ft. $2.65; 6 to 8 ft. $3.15.

**WILLOWS**

**WILLOW, GOLDEN WEEPING**—A very showy golden tree, reaching a height of 60 feet. 3 to 4 ft. $1.05; 4 to 6 ft. $1.35; 6 to 8 ft. $1.65; 8 to 10 ft. $2.00.

**WILLOW, BUDSUMMER**—A large willow with large clusters of bloom. 2 to 4 ft. $1.05; 4 to 6 ft. $1.35; 6 to 8 ft. $1.65; 8 to 10 ft. $2.00.

**WILLOW, BUDSUMMER**—A large willow with large clusters of bloom. 2 to 4 ft. $1.05; 4 to 6 ft. $1.35; 6 to 8 ft. $1.65; 8 to 10 ft. $2.00.

**BEAUTIFUL DOGWOODS**

**DOGWOOD, WHITE FLOWERING** (Cornus Florida) — A handsome, large white flowering tree. 25 to 30 feet tall, 15 feet wide. 4 to 5 ft. $1.65; 5 to 6 ft. $2.35; 6 to 8 ft. $3.15; 8 to 10 ft. $4.30.

**SWEET SWEET SWEET SWEET** (Liquidambar styraciflua)**—A native tree that is perfectly hardy. The glossy foliage, the yellow and purple foliage, with the carminy red berries turn to deep red in autumn. 4 to 6 ft. $2.65; 6 to 8 ft. $3.15.

THE BEST POPLARS
POPLAR, CAROLINA
A very rapid growing tree, giving shade in a very short time. Very easy to transplant and does well on any kind of soil. Durable for roadside plantings, in parks and along rivers and streams for the protection of the banks. Used extensively for screen to hide unattractive buildings. Attains a height of 60 feet at maturity. Bright, heart shaped, glossy green leaves, silvery white underneath.
2 to 4 ft., 53¢; 4 to 6 ft., 83¢; 6 to 8 ft., $1.14; 8 to 10 ft., $2.19
POPLAR, LOMBARDY
A tall narrow tapering tree, 60 feet high at maturity, a striking feature in any landscape. Fine for planting in groups, along driveways, or to make boundary lines. Sometimes used for tall screen hedges.
4 to 6 ft., 83¢; 6 to 8 ft., $1.14; 8 to 10 ft., $1.98; 10 to 15 ft., $2.80
POPLAR, SIMONI (Chinese)
Fast, slender grower, somewhat resembling Lombardy, but having more spread and being a long-lived tree.
2 to 4 ft., 79¢; 4 to 6 ft., $1.31

NUT TREES MAKE EXCELLENT SHADE
ORDER THEM FROM PAGE 14

BENCO'S PURPLE FRINGE
MAGNIFICENT SMOKE TREE
One of the loveliest native American ornamentals. When in bloom gives the unusual appearance of a brightly colored cloud of smoke in June and July. The beautiful shining green foliage colors beautifully in the fall.
2 to 3 ft. $1.49 each

BENCO'S NEW "RED FLOWERING WEEPING PEACH"
This is the first time that we have been able to offer this wonderful Ornamental Weeping Peach. With large red flowers and weeping habit of growth similar to the weeping flowering cherry. You will be proud to place it in a prominent place in your yard so that it will be a specimen plant that will truly be a source of inspiration to your friends and neighbors.
18 to 24 inch $1.59 each

BENCO'S MOUNTAIN ASH
(European)
A most popular tree in America as it is in Europe, attaining a height of 18 to 25 ft. It is laden with drooping clusters of bright red berries against a background of soft green foliage.
4 to 5 ft. $3.49 each

BENCO'S CUT LEAF WEEPING BIRCH
The gleaming white bark and graceful drooping branches with delicately cut leaves, gives a striking beauty. Summer and winter, unmatched by any other ornamental tree. Does best in northern and eastern states. The white bark comes a year or two after planting.
3 to 4 ft. $2.49

WIND BREAK
Offer
10 LOMBARDY POPLARS
2 to 3 ft. size..............$3.98
3 to 5 ft. size..............4.98
One of the fastest growing pyramidal type trees for screening or bordering your property line.

PLANT FOR WIND AND COLD PROTECTION
A belt of trees planted around the farmhouse will reduce wind velocities by 50 per cent and reduce fuel consumption in farmhouses by as much as 30 per cent. A planting of these trees will soon pay for themselves.

WALNUT, BLACK
Valuable for nuts and timber. It is hardy and succeeds best on a rich, deep, moist soil. Too well known for long description.
4 to 6 ft., $1.05; 6 to 8 ft., $2.10
8 to 10 ft., $3.15

SYCAMORE, AMERICAN
A well known tree very common throughout the United States; leaves heart shaped at base; the short lobes, sharp pointed branches are wide spreading.
4 to 6 ft., $1.31; 6 to 8 ft., $2.05; 8 to 10 ft., $3.10

BENCO'S RUBY TREE
PRUNUS CISTENA—A medium size growing tree. The leaves are bright red to scarlet and branches also red. Light pink flowers in early spring. An amazing tree, hardy and easy to grow.
2 to 3 ft. $1.49 each

BENCO'S MAGNOLIA SOULANGEANA
Hardest Magnolia—Considered the most beautiful of all flowering trees. One of the first trees to bloom in early spring, the delightfully fragrant flowers appear before the leaves. Blossoms are very large, often 8 inches across, purple-pink on the outside and white on the inside. Grows 10 to 12 ft. tall and starts blooming when very young, often the same year planted. Not recommended for planting north of Missouri, Kansas. Marvelous in all southern states.
18 to 24 inch $3.49

AMERICAN ASSOCIATION OF NURSEMEN
MAGNIFICENT MONUMENTAL
BEAUTY, VALUE - SERVICE
1897

MAGNIFICENT MONUMENTAL
**ORNAMENTAL SHRUBS AS LOW AS 13¢**

When you buy this special assortment...

**ALMOND**—Early spring flowering shrubs, gaily in full bloom before the leaves appear, with beautiful double flowers of rose, snuggling tight to the twigs.

2 to 3 feet, **$1.04**

**ALTHEA** (Rose of Sharon)—Double rose, double white, double purple, double red.

2 to 3 feet, **72¢**; 3 to 4 feet, **93¢**

**BARBERRY THUNBERGI**—18 to 24 in., **72¢**.

**BARBERRY RED LEAF**—12 to 18 inches, **79¢**; 18 to 24 inches, **$1.03**.

**BEAUTY FRUIT** (Callicarpa Purpurea)—A pretty shrub of low growth, blooming profusely in mid-summer followed by large clusters of violet berries, which persist until after frost.

1 to 2 feet, **72¢**

**CALTHANUS** (Carolina All Spice)—A unique shrub growing upright to 6 feet, clumping its strong, reddish brown shoots with large glossy leaves, from the axils of which spring odd double, spicily fragrant flowers of chocolate red.

18 to 24 inches, **72¢**

**CARAGANA** (Siberian Pea Tree)—A large shrub with beautiful leaves of bright green color; flowers yellow in small clusters in late spring, splendid for massing; do well on most all soils and in partially shaded places.

2 to 3 feet, **$1.03**

**BUTTERFLY BUSH**—Flowers resemble lilac in color and shape—appear in great profusion from mid-summer onward until frost. Of a delightful fragrance that is attractive to butterflies. Will invariably bloom the first year.

2-year, **79¢**

**CYDONIA, JAP. ONICA** (Flowering Quince)—A popular door-yard shrub, growing from 3 to 6 feet tall high. The scarlet flowers appear before the leaves, giving a brilliant glow to the bush from a distance; excellent in shrub groups or as a hedge.

2 to 3 feet, **79¢**

**DEUTZIA** (Golden Bell)—These splendid old shrubs growing 8 to 10 feet tall eventually light up the garden with glinting masses of yellow very early in spring before leaves appear. The upright forms are excellent tall hedges, and are bright hued fillers for massed shrub groups.

2 to 3 feet, **83¢**

**ELDER** (Sambucus)—Although the Elders are attractive in flowers and fruit, they are chiefly grown for their beautiful leaves. They grow well in all soils, and must have vigorous pruning to keep them in shape.

2 to 3 feet, **62¢**

**FOREST HONEYSUCKLE**—The flowers of this variety often open before the snow has gone in spring, and are deliciously fragrant. The foliage is of a very attractive shade, and remains green until hard freezing weather.

2 to 3 ft., **79¢**; 3 to 4 ft., **89¢**

**HYDRANGEA**

18 to 24 inch, **$1.03**

**ARDATURGENTS** (Hills of Snow)—The flowers are, in large way, similar to the familiar "Snowball" in appearance; conspicuously white and imposing, July to September. By cutting back to the crown each spring, the bushes may be kept round and dense at a normal height of three to five feet. They are excellent for solid low borders or in foundation plantings which will allow for about four feet.

**CRAB MYRTLE**—The most extensively used of the old varieties of Bush Honeysuckles. There are a number of varieties, some having flowers of distinctly reddish hue, some pink and some white. All bloom very freely and in mid-summer carry loads of brilliantly colored berries, usually of bright red. We can supply Tartarian Honeysuckles in pink, red or white flowers.

**PANICULATA** (Touchie Shrub)—Fine, tall hedges, or if planted in rich soil and severely pruned every spring before the leaf buds open, will get to be very dense, dwarf clumps of compact form, wonderfully attractive when laden with their massive white plumes. Large bed kept at a uniform development, are extremely showy, first snow white, then pink, then red, pale-rose and bronze and green. August till autumn. Planted rather well back in the intervals between other shrubs, the projecting flowers arising from the ground are extremely effective.

**CRAPE MYRTLE** (Lagerstroemia)—The most gorgeous of all blooming shrubs for the Southwest. Blooms throughout the entire summer; withstands droughts wonderfully. Crape Myrtle is very effective for hedges, and is at its best when pruned every winter and not allowed to grow in tree form. We can furnish pink, red and white.

**HONEY SUGGLES**

2 to 3 ft., **$1.03**
PLANT BEAUTIFUL FLOWERING SHRUBS TO MAKE YOUR HOME WORTH MORE!

FRENCH HYDRANGEAS
2-year, $1.67 each

FRENCH HYDRANGEAS—In gorgeous colors. These most beautiful hydrangeas that grow can be grown outdoors in this section where it gets 20 degrees below zero by mulching them in the late fall for the winter. Lay the tops down and cover with this mulching so they will be well protected from the hard freezes. In the spring remove some of this mulching and straighten the tops up and they will bloom nicely for you.

MOUSSE HAMAR (The famous Blue Hydrangea)—A beautiful plumbago blue, large flowers and profuse bloomers.

BOUQUET ROSE (Rose and Pink)—Large trusses of well formed flowers, rosy amber, turning to bright pink.

FRENCH LILACS (Hybrids)
Admired by everyone! Twice as beautiful as the old fashioned lilacs. Grow to 8 ft. tall, hardy, dependable and easy to grow. Blooms young. Flowers are much better, more richly colored, more sweetly scented.

LUDWIG SPAETH—Best dark colored lilac. Large wine-red attractive single flowers in narrow, well-filled clusters. Very fragrant.

FAWBOUR (3 species)—Large trusses of well formed flowers, rosy amber, turning to bright pink.

BLUE MIST—A beautiful low growing shrub with numerous clusters of powdery blue, fringed flowers from August to frost. A neat, compact, rounded bush about 2 ft. tall with silvery green foliage. Very showy and hardy.

1 year plants $1.05 each

SPECIAL Shrub Collection

1/2 to 2 ft. $1.14
2 to 3 ft. $1.25

SPIREAS—THE FAVORITE SHRUBS

SPIREA, Anthony Waterer—Dwarf, bushy, of spreading type with large corollas. Brilliantly colored and very handsome. Very free flowering, at its best in late summer. This is one of the very best showy red flowering shrubs. Sufficiently dwarfed to be used in foundation plantings or the low front of shrub groups.

15 to 18 inches, 83c

Billardi—Tall, erect shrub with canes terminated by feathery plumes 5 to 6 inches long, of dainty pink color.

2 to 3 ft., 83c

HYPERCUM (St. John's Wart)—An attractive, beautiful class of hardy shrub now becoming well known and in demand for shrub groups and foundation plantings. Their dense, rounded construction of fine twigs and small, silvery shiny leaves; abundance of fully distributed yellow blooms.

2 to 3 ft., 50c

KERRIA JAPONICA Fl. P1.—A very bright and cheerful dwarf to medium shrub. Particularly adapted to sunny foundation plantings. Its very numerous branches are graceful, slender, shiny, arching; its leaves serrated; its stems and foliage alike are brilliant. Its abundant double flowers are like half-open rose buds, rich yellow.

1/2 to 2 ft., 1.25

KOLKWFITZIA, amabilis—Beauty Bush—A recently introduced shrub which bids fair to become one of the very best. Growth upright in the center, with outer branches arching. Its bell-shaped flowers, borne in pairs forming a cluster of 25 or so, pink with orange veins. Buds dark pink. Somewhat resembles the Weigela.

2 to 3 ft., 1.46 each

ROSE ACACIA—Drooping clusters of rose colored flowers resemble a sea blossoms.

2 to 3 ft., 62c; 3 to 4 ft., 83c

LILACS (Syringa)
LILAC, Common Purple—It is the well known purple fragrant variety.

2 to 3 ft., $1.03
Common White—It is also fragrant but flowers are white.

2 to 3 ft., $1.03

Persian—A graceful shrub with finely cut foliage and delicate lavender blossoms; blooms not large as the common purple, but it is a graceful shrub.

2 to 3 ft., $1.03

SNOWBALL Old Fashioned (Viburnum opulus sterile)—An old time favorite. Rather tall growing, foliage large, and coarse showy flower in large white "balls" in April. 1 to 2 ft., 51c; 2 to 3 ft., 72c

HIGHBUSH CRANBERRY (Viburnum opulus)—Beautiful shrub of the viburnum family, foliage the same as the Old Fashioned Snowball. Blooms in early spring, flowers flat white clusters followed by berries which turn red by fall.

1 to 2 ft., $1.14
2 to 3 ft., $1.03

TAMARIX, Odessana (Caspian Tamarisk)—4 to 6 ft. Exquisitely feathered foliage of silvery green, blooming in July and August with large, loose panicles of lavender-pink flowers. Dwarf growing, more bushy and spreading than the other.

2 to 3 ft., $1.03

WEIGELIA, Rosea—Most popular of all; tall growing, vigorous, with deep pink flowers in greatest profusion during June and more sparsely at intervals thereafter.

2 to 3 ft., 89c

WEIGELIA, Eva Rathke (Red Flowering)—Dwarf, dark red flowers in May and June. Dwarf. Produces amazing quantities of dazzling ball shaped flowers.

12 to 18" size only $1.05
Evergreens—Low as 15¢ Each
Bargain Evergreen Assortment

These Evergreens are young trees, from 3 to 5 years old. They are well-rooted and well-shaped and will, in a few years, make a fine specimen evergreen. We offer the following kinds that will range in height from 8 to 10 inches: Norway Pine, Black Hill Spruce, Juniperus Virginiana, Scotch Pines, Chinese Arborvitae. Our selection.

**IMPORTANT NOTICE**

This evergreen assortment is not balled and burlapped and is shipped PREPAID to you. All other evergreens listed on this page are balled and burlapped and will have to be shipped to you via Express. Will you please indicate on your order blank that you expect to receive this assortment, as the cost is different under our usual terms, or we will not be able to fill your order. This order is placed on the basis of what we have in our office until we know that you want these balled and shipped, your order is received.

Write to us for permission to ship your Evergreen Assortment, as we do not ship any Evergreens (except the $1.80 Evergreen Assortment) to any points farther away from us than the following: Oklahoma City, Okla.; Kansas City, Mo.; Texarkana, Tex.; Memphis, Tenn.; St. Louis, Mo.; and Kansas City, Mo.

American Pyramidal Arborvitae

This exceedingly beautiful Arborvitae is the most compact and erect of the entire species, being in form almost a counterpart of the Irish Juniper. Foliage a deep green, retaining color remarkably well through the entire season and perfectly hardy.

2 to 3 ft., $4.50; 3 to 4 ft., $6.00
4 to 5 ft., $7.50

SPRUCE

Black Hills Spruce—Considered a close relative of White Spruce, from the Black Hills of South Dakota. The foliage runs from green to a bluish tint; some as blue as a Colorado Blue Spruce. One of the hardiest of all Spruces, grows unusually compact, and bushy in form, and is very dense. The growth is twice that of the White Spruce; 2 to 3 ft., $4.00; 3 to 4 ft., $6.00.

Colorado Blue—The queen of the spruce family; the color is a beautiful blue, which holds well all through the year; this is one of the most valuable of the ornamental evergreens. 1 to 2 ft., $7.88; 2 to 3 ft., $10.50.

Colorado Green—Tall growing, compact and perfectly shaped. Thick short needles of green color. 1 to 2 ft., $4.26; 2 to 3 ft., $6.30.

White Spruce—One of the very best conifers, especially for cold climates. Compact, upright growing, long lived, retaining its branches to the ground, aromatic, drought-resistant, varies in color from light green to glaucous blue. 1 to 2 ft., $4.20; 2 to 3 ft., $6.30.

Broad Leaf Evergreens

Abeille (Abelia cruzensis grandiflora)—A beautiful low growing evergreen flowering shrub; leaves a glossy dark green contrasting effectively with the red tinged bark. The numerous small white tinged pink flowers resemble miniature Arbutus, having comparatively deep, slender throat with the individual flowers only is about three-quarters of an inch in length. Blooms from June until October, and is very bushy, and is a good plant for the garden. It is easily propagated from young shoots, and is hardy; 3 to 4 ft., $3.15; 3 to 5 ft., $4.20.

Boxwood (Boxus sempervirens)—Everyone is familiar with Boxwood and its good qualities. There is hardly a plant that can be used in quite so many positions. For edging, as a specimen for a shrubbery, in a window box, it is very useful. The foliage is always green and very desirable as a shrub for the garden, and is a heavy feeder and should never be planted in soil; it can get plenty of fertility and moisture. 12 to 15 inches, $3.15.

Evergreen Elwynis (Euryonymus Patens)—One of the best broad leaf evergreens for the Southwest. Luxuriant growth of and naturally symmetrical in shape, is as well adapted for a hedge as for a specimen plant or a background for a shrub group; may be used for hedges or for spreading shape by pruning; leaves occasionally followed by bright red berries. 18 to 24 inches, $2.10.

Magnolia Grandiflora—The grandest of evergreens and flowering trees. Has large, glossy, bright green leaves. Succeeds throughout Texas and Oklahoma, as well as in other southern states. It requires pruning off all but a few of the tip leaves when young, and treated as in our handling, are readily grown. 24 to 30 inches, $4.75; 30 to 36 inches, $5.25.

Lake Hills Spruce—Considered a close relative of White Spruce, from the Black Hills of South Dakota. The foliage runs from green to a bluish tint; some as blue as a Colorado Blue Spruce. One of the hardiest of all Spruces, grows unusually compact, and bushy in form, and is very dense. The growth is twice that of the White Spruce; 2 to 3 ft., $4.00; 3 to 4 ft., $6.00.

Colorado Blue—The queen of the spruce family; the color is a beautiful blue, which holds well all through the year; this is one of the most valuable of the ornamental evergreens. 1 to 2 ft., $7.88; 2 to 3 ft., $10.50.

Colorado Green—Tall growing, compact and perfectly shaped. Thick short needles of green color. 1 to 2 ft., $4.26; 2 to 3 ft., $6.30.

White Spruce—One of the very best conifers, especially for cold climates. Compact, upright growing, long lived, retaining its branches to the ground, aromatic, drought-resistant, varies in color from light green to glaucous blue. 1 to 2 ft., $4.20; 2 to 3 ft., $6.30.

The Junipers

Jupiter Andora—One of the most interesting and attractive of the Junipers. It is a compact, dense, hardy, evergreen shrub. It is closely related to the Russian Juniper and is very similar in appearance. 2 to 3 ft., $4.50; 3 to 4 ft., $6.00.

Baker’s Pyramidal Arborvitae—A beautiful dark evergreen that will furnish a special green for your foundation planting. It is a little compact, grows in late fall, and is very hardy; 3 to 4 ft., $4.73; 4 to 5 ft., $5.30.

Compacta—Broad, compact grower with tapering top. Foliage bright green. One of the hardiest of all the Junipers, and one of the most beautiful. 18 to 24 inches, $3.15; 2 to 3 ft., $4.73.

Chinese Pyramidal Arborvitae (T. orientalis Pyramidalis)—One of the tallest and hardiest varieties of evergreen, is a beautiful dark green, its little branches being of unusual delicacy. Be sure to order one or more of these beautiful and attractive species and we will guarantee that you will please you. This is one of the most rare of the dwarf evergreens. Our trees are well-ramified, transplanted and root pruned. 12 to 18 inches, $5.

Baker’s Pyramidal Arborvitae—A beautiful dark evergreen that will furnish a special green for your foundation planting. It is a little compact, grows in late fall, and is very hardy; 3 to 4 ft., $4.73; 4 to 5 ft., $5.30.

Globe Arborvitae—A new variety that is very handsome. In shape it is absolutely round or globose, very dense in growth, retains its foliage beautifully. 18 to 24 inches, $3.68; 2 to 3 ft., $6.30.

Jupiter, Irish—Erect, slender, and formal in habit; column or pyramidal form, foliage sage green, very compact, well branched, perfectly hardy and a most decorative in combination with other forms and colors of evergreens. 3 to 4 ft., $4.99; 4 to 5 ft., $6.30.

Jupiter, Pfitzer’s Chinese pinetina—This is the most popular of all the Pfitzer Junipers. It is a hardy, evergreen shrub. It has a habit of growth, its pendulous branches and attractive foliage is strikingly beautiful. The branches are horizontally spreading and the terminals slightly drooping. It lays close to the ground and for eloquent hanging branches. It is a very graceful plant and nothing superior. Flowering lines are especially valuable in landscape planting. This tree seems to fill requirements better than any, both summer and winter. Because of its ability to withstand the cold and dust of cities it will thrive almost anywhere. 18 to 24 inches, $5.88; 2 to 3 ft., $6.38; 3 to 4 ft., $6.73.

Silvertown Pfitzer—Same as regular Pfitzer except beautiful silver foliage. 18 to 24 inches, $4.20; 2 to 3 ft., $5.25; 3 to 4 ft., $6.83.

Spiny Grecian Juniper—Narrow and columnar, having many erect branches and branching. The foliage is spiny, with sharp points and of a glaucous blue color. Makes an extremely dense growth. 18 to 24 inches, $4.73; 2 to 3 ft., $5.78; 3 to 4 ft., $6.38.

Achillea juniper—A variety of the Sabin Juniper. A very fast grower and has a more loose and spreading appearance, very strong and handsome. 18 to 24 inches, $5.40; 2 to 3 ft., $6.83; 3 to 4 ft., $7.25.

Sabin juniper—The old familiar, long branches, and branching heavily. Foliage in height. Well covered with soft tufted, dark green foliage and frequently displays blackish or purplish berries. 18 to 24 inches, $4.73; 2 to 3 ft., $5.78; 3 to 4 ft., $6.38.

Prochemium Juniper—A good, hardy, thrifty, rapid growing prostate Juniper with prickly blue-green foliage. 18 to 24 inches, $4.20.
ALL AMERICAN ROSES
SENSATIONAL PATENTED FAVORITES—Eight Gorgeous Shades to Choose From For Garden Beauty.

REX ANDERSON (Pat. 335) $1.75 Each
An outstanding exhibition rose of delicate, lovely ivory-white; perfectly formed, slow opening, one of the few very successful whites. Its fully double flowers may grow to enormous size by disbudding. Exceptionally free and vigorous, with abundant gray-green foliage. Soft and fascinating scent. Another little we are proud to offer. Always an excellent choice if you wish to achieve a garden-spot effect of frosty white.

McGREDY'S SUNSET (Pat. 317) $1.75 Each
Orange-yellow overlaid with warm salmon-flame, tinted with delicate orange and rich scarlet. The blooms open in glorious grandeur and hold their perfect form well even when cut.

TEXAS CENTENNIAL (Pat. 162) $1.50 Each
Brick-red, with some gold; center lighter red, toning to dark pink with age. It is large and robust.

TALLYHO (Pat. 828) Each, $2.00
1949 All-America Winner—Uniquely colored blooms of warm pink with the reverse of the petals crimson, exquisitely formed and delightfully fragrant.

NOCTURNE (Pat. 713) Each, $1.75
1948 All-America Winner—Bright cardinal-red with intertwining dark shadings of chrysanthemum-crimson. Plenty of large, richly textured petals.

1954 ALL AMERICA WINNERS

MOJAVE—Pat. 1176—Each $3.00
Radiant orange is the dominant color, highlighted by flame-like tones of scarlet and vermilion. Its vivid coloring is matched only in the burning orange glow of a California desert sunset. Produces amazing numbers of beautiful long tapering buds.

LILIBET—Pat. Pend.—Each $3.00
A wonderful Floribunda. Rose-pink to Dawn-pink, each little bud is perfect in every detail. Ideal for corsages or arrangements. The plant is bushy and compact.

SPECIAL ITEMS TO SOLVE GARDEN PROBLEMS

PLANT BY THE MOON
By Llewelyn George, Well Known Author and Lecturer
The Moon Sign Book gives complete instructions in the use of planetary influence on planting and harvesting, also business and personal affairs, etc., the result of more than thirty-five years research. Why do farmers plant Potatoes in the dark of the moon? When should Corn, Beans etc., be planted? Why do florists plant seeds in the 2nd quarter and a certain Moon Sign? Why should you plant flowers in Libra on a certain date and Moon's phase? These and many other questions are answered and explained in a simplified yet scientific and practical manner. The Moon Sign Book has been published annually for over 37 years with sales increasing each year. A mine of useful information. Price in the U. S. $1.25

(Rose shipped separate)
**Number of Trees Per Acre at Different Distances**

Rule: Multiply the distance the plants are set apart, by 4.5, and the product will be the number of square feet for each plant, or hill, which, divided into the number of square feet in an acre (43,560), gives the number of trees or plants per acre.

</table>
GOOSEBERRIES

Should be planted in good, rich soil and well manured once a year. Prune regularly. Plant 4 to 6 feet apart in rows. Mulch heavily in the fall. Plants are hardy, rugged and easily grown.

HOUGHTON—A medium sized American variety which bears abundant and regular crops and never mildews; fruit smooth, red, tender, and very good; valuable.

62c each; $6.25 per doz.

NEW*PIXWELL GOOSEBERRY

Best variety grown. A tremendous bearer of large, fine quality berries. Berries hang down on the underside of branches so that they are easy to pick. Not as thorny as other kinds. Bears young. Large berries of light green color, turning pink when fully ripe.

83c each; $8.35 per doz.

CURIANTS

62c each; $6.25 per doz.

Grown in long bunches well filled to the tip. Superior quality and flavor. Berries are firm and very productive. It’s easy to grow—easy to pick—easy to sell.

BLOOMING HEART (Fon Leaf)—A dwarf growing variety with finely cut foliage and pretty pink flowers throughout the season. Each, 90c; 3 for $1.35.

BABY’S BREATH, Bristol Fairy—Far superior to old Baby’s Breath. This new variety has large panicles of white flowers all summer long. Lovely in the garden and for cutting. Grows 2-3 ft. tall. Each, $1.25.

DELPHINIUM (Hybrids)—A favorite wherever flowers are grown. Varies from pale blue to deep indigo blue and purple. Fine for cutting and in the garden. Grows 3-5 ft. tall. Each, $1.65.

DOUBLE HOLLYHOCKS—A magnificent new strain with exquisite double flowers; hardy and easy to grow.

Each, $1.65.

ARMENIA, Silver King—Often called the Ghost Plant because its frosted, silvery-gray branches and tiny leaves. Use it for a 3-ft. background or as a thriller. Grows to 3 ft.; very hardy.

75c each; 3 for $2.00.

ACHILLEA, The Pearl—Always dependable; hottest summer sun don’t stop it from producing compact, cushiony, pure white flower heads July till frost. Grows 1½ to 2 ft. tall. Fine for rockery and small gardens. Grows flowers every year. 35c each; 3 for $1.00.

Giant White Shasta Daisy—Marconi—Largest of the double daisies with flowers 5 to 8 inches across. A superb plant for the perennial or rock garden. Excellent for cutting. 75c each; 3 for $2.00.

HARDY CARNATION—Our choice of pink, white, and red. Each, 35c; 6 for $1.65.

LINUM PERENNIE (Hardy Flax)—Featherly foliage and sky-blue flowers in profusion. Grows 2 ft. tall. Each, $.35; 6 for $1.65.

CUSHION CHRYSANTHEMUM—Dwarf, pink-cushion type which bloom from August till frost. Very hardy, easy to grow. Blooms first year. Four different striking, vivid colors: Yellow, Bronze, Pink, and Red. Each, 50c; 3 for $1.35.

HARDY CHRYSANTHEMUM—Large flowering varieties. Choice of Yellow, Pink, White, Bronze and red. 45c each.

FOXGOLE, True Perennial Type—This is not the touchy variety Foxlove that you find in the garden but a true perennial type known as Ambigula. Lovely soft yellow blooms, flecked with chocolate. Looks like a hothouse grown plant. Blooms all summer. 35c each; 3 for 90c.

GIANT HIBISCUS—Mixed Colors of White, Red, Pink and Yellow blooms as big as saucers. Giant among the perennials. 4 to 5 ft. tall. Heavy foliage. Blooms in August and September like giant Hollyhocks. 90c each; 3 for $2.30; 1 doz., $4.95.

SALMON GLOW—Immensely handsome rich salmon-pink blooms. Each, $.55; 6 for $2.75.

NEW*CRIMSON KING CARNATIONS

The aristocrat of the hardy carnations. Produces beautiful crimson flowers on stems 12 to 14 inches in length. Very desirable for floral arrangements. It is the only HARDY, BLOOMING Carnation available at this time, and should be grown in every flower garden.

Strong Pot Grown Plants

Each, $0.55.

3 for $1.50.

6 for $2.75.

12 for $5.25.

BALLOON FLOWER (Platycodon) Large, showy, deep blue flowers on 12-inch stems in great profusion all summer. Each, 35c; 6 for $1.65.

35c for 90c each.

MATURE H. All flowers are perfect for cutting. Grows 3-5 ft. tall. Each, $1.25.

3 for $3.25.

ROYAL PURPLE—Richly shaded violet with deeper eye. Each, $.45; 6 for $2.35.

3 for $1.25; 12 for $4.50.

COREOPSIS—Bright yellow daisy-like flowers in profusion all summer long—easy to grow. Grows 3 feet tall. Each, 35c; 6 for $1.65.

90c for 3 for $4.00.

SALTDAISY—2-3 inch, round heads of white, pink, and purple. Thyme like flowers. 12 inch, 2 for $1.00.

LYTHRUM ROSEUM—Mass of blooms from July to September. Spike of spike of deep rose-colored flowers. 3 to 4 feet tall. Very hardy. Blooms in a year. Each, 50c or 3 for $1.25.

SWEET WILLOW—No garden is complete without some of the lovely, prolific bloomers. Mix colors.

Each, $.35; 6 for $1.65.

3 for $4.00.

SWEET VIOLETS—Well-known flower that is always popular. Deep violet, sweetly scented. Clumps.

Each, $.50; 6 for $2.60.

3 for $7.80.

TRITOMA (Red Hot Poker)—These new hybrids are hardy, with beautiful flower spikes of brilliant orange-red on graceful stems. 3-4 feet tall.

Each, $.35; 6 for $1.65.

3 for $2.00.

CUSHION CHRYSANTHEMUM—Dwarf, pink-cushion type which blooms from August till frost. Very hardy, easy to grow. Blooms first year. Four different striking, vivid colors: Yellow, Bronze, Pink, and Red. Each, 50c; 3 for $1.35.

HARDY CHRYSANTHEMUM—Large flowering varieties. Choice of Yellow, Pink, White, Bronze and red. 45c each.

FOXGOLE, True Perennial Type—This is not the touchy variety Foxlove that you find in the garden but a true perennial type known as Ambigula. Lovely soft yellow blooms, flecked with chocolate. Looks like a hothouse grown plant. Blooms all summer. 35c each; 3 for 90c.

GIANT HIBISCUS—Mixed Colors of White, Red, Pink and Yellow blooms as big as saucers. Giant among the perennials. 4 to 5 ft. tall. Heavy foliage. Blooms in August and September like giant Hollyhocks. 90c each; 3 for $2.30; 1 doz., $4.95.

SWEET PEA—PERENNIAL—That Bloom Year After Year—Every home should have a planting of these. Fine for trellis. Mix colors. 24¢ each; $2.40 per doz.
This Season is the Time to Plant Your Nursery Stock

Beautiful in Flower
Beautiful in Leaf
Beautiful in Fruit

Our Fruits, Nuts, Shade Trees, Evergreens, Shrubs, and Berry Plants of all kinds are among the few things that your money invested will increase in value in the years to come. Often Trees that do not cost more than $1.00 or two will produce as much as $50.00 worth of Fruits in one year.

**"LIVING FENCE"**

The Japanese rose (Rosa Multiflora Japonica) provides a permanent, stock-proof, easy-to-care-for fence, and an excellent game refuge. Sturdy well-rooted 6" to 12" plants—thorny, upright type. Your permanent, living, "barbed-wire" fence costs just

50, $3.90; 100, $7.45; 500, $34.20; 1000, $60.00

**SPREADING JAPANESE YEW**

This evergreen usually grows more wide than tall. Branches out from the bottom with several stems, developing into a bush form. Rich, dark green foliage with numerous crimson berries in the fall. Does well in sunny and northern exposures. Fine for foundation plantings.

12 to 18 inch $3.15 each

**DWARF MUGHO PINE**

An excellent dwarf pine, being globe shaped and erect branching; very attractive, especially in the spring, when the new growth, which seems like miniature candles, completely covers the bush.

8 to 12 inch $2.63 each

**MAPLE, CRIMSON KING**

Plant Patent No. 735

A beautiful form of Schwedler Maple, originated in France. Retains its brilliant crimson color all through the season.

4 to 5 ft. $4.50 each

Price, 2 to 4 ft. $1.17 — 4 to 6 ft. $1.87

Something entirely new—a lovely ornamental tree for your lawn, producing an abundance of edible fruit.

The tree is most outstanding with its red foliage which creates a pleasing contrast with the green of the lawn. The color is bright red in spring, stays red all summer, and changes to deep maroon in the fall. Deep rose blossoms cover the tree in early spring, creating a most colorful picture.

During summer and fall the tree is loaded with a crop of small, perfectly round edible Peaches about 1½ inches in diameter, colored red all over the fruit. The flesh is white with a delicious sweet flavor. The tree grows around 8 to 10 ft. tall at maturity.

This is an entirely new tree and our supply is limited. Please order early.
